

La Croisée Community Association

Community Petition - for the preservation of forests and wetlands to the Ville de Gatineau

April 7, 2021

Recognition:

This petition would not be possible without the much appreciated support of the community volunteers and citizens of the La Croisée community.

La Croisée Community Association
www.croisée.org

Introduction:

La Croisée residents are aware of the ongoing preliminary development of a Master Plan for the future development of the La Croisée community. They are also aware that the Gatineau Golf Course may have a limited lifetime and that new zoning grids for the community reflect the possibility that most of the community may become housing.

The majority of residents are not against development; however, this petition is a request from resident citizens to preserve the value to community life of some of the existing forest, wetland and natural environment of the La Croisée community.

Petition - to preserve La Crois e forests and wetland

The vast majority of La Crois e neighbours value the natural spaces, forests and wetlands within the La Crois e community.

Our greenspaces sustain the health and wellbeing of residents, as well as wildlife and plant species that also call this community home.

This value may no longer be perceived due to the pressures of basic economic "[intrinsic value](#)" and densification in the urban plan.

Therefore, there is a potential risk to the La Crois e community of losing its natural spaces, forests and wetlands, in particular by first removing the natural streams that flow from the Boucher Forest.

Plan conceptuel partiel pr elimaire - pr esent e d ecembre 2020
.... et l'espace rose inconnu.

Preliminary Partial Concept Plan - presented December 2020
....and unknown pink space.

By protecting and integrating greenspaces in the urban plan, the Ville de Gatineau, housing developer, residents, and natural life - all "win".

We are not against future development; however, we would like planning to integrate and preserve the existing value in the natural environment.

Residents have benefited from the existing greenspace by walking in the trails and observing the wildlife. We have witnessed the important role the beaver dam plays in keeping our [ecosystems healthy](#).

The Quebec Ministry of Environment and Climate Change also notes that, "As stated in the Quebec Environmental Quality Act. "Every person has a right to a healthy environment and to its protection, and to the protection of the living species inhabiting it.""

In fact, [many citizens in Quebec agree](#), with increasing urgency, our need to preserve our natural world.

Why is it important to protect greenspaces in the community development plan?

- To protect vulnerable areas and maintain clearly defined greenspaces in the urban plan.
- To encourage the City to do better community design in collaboration with the residents.
- To mitigate the effects of climate change.
- To protect the natural purification/retention of water and production of "fresh air".
- To cherish wildlife and the benefits of the biodiversity.
- To encourage the health benefits of outdoor exercise, walking amongst green space (without a fee); and
- To experience and appreciate the natural life throughout the seasons.

We, the undersigned, wish to preserve in perpetuity, the natural spaces, forests, and wetlands within the La Croisée community future development plan and to maintain this extraordinary value of our community.

(*The pictures shown in this letter have been taken by residents of the La Croisée community with utmost respect and admiration for private property.)
